# The Building Buzz

Summer 2011

It's been a hot & dry couple of weeks in the shop in Collingwood, ON but that hasn't stopped the Legendary team from producing a number of projects.

While staying well hydrated and working in shade as much as possible, the guys handcrafted logs for an upcoming 8" x 14" Dovetail custom home; constructed wall panels for a Hybrid garage; and handcrafted heavy timbers for king post trusses among other things.

Let us know how the Legendary team can help with your next project.

Milan Smeh

## 25' x 32' Hybrid Garage

When our client asked if we could build a garage for their Blue Mountain, ON home, there was no question that the Hybrid Building System (HBS) would be perfect for the project.

Elapsed time from contract to installation? One (1) month!

HBS really is a fast & flexible building solution.

## Q & A

Q. What small plans do you offer?

A. We introduced small plans for bunkies/cabins earlier this year at the Nat'l Home Show. Our design range now includes 8'x12' · 12'x16' · 10'x20' · 20'x24' · 20'x28' · 24'x28' models. Photos can be found in the last Buzz, & on YouTube & Facebook.

## Events

Hybrid Garage Install, The Blue Mountains, ON JUL/AUG11

8" x 14" Handcrafted Custom Log Home Install, Meaford, ON AUG/SEP11

Fall Cottage Life Show, Int'l Centre Mississauga, ON 25-27NOV11

### 8"x14" Custom Dovetail

"Having a log home has always been a dream of mine. Wanting to capture the warmth & gentility of days gone by, Legendary is helping me realize this dream. It's so exciting to see the logs assembled at Legendary's Collingwood site & I can't wait to see them reassembled on my lot in the Thornbury/Meaford area. Thank you Legendary—I'm looking so forward to my dream home!"  
*Lisa*

The Legendary Team grew by one on July 3rd with the arrival of Sophia Leigh Smeh. Milan commented, "Wendy & I are thrilled with Sophia's safe arrival. I'm sure she will be log building some day very soon!"
